Release checklist

md2pdf turns this file into an **accessible PDF** in milliseconds, with PDFjet doing the drawing.

Before the release

- [x] Write the changelog
- [x] Run the tests
  - [x] Linux and macOS
  - [x] Windows
- [x] ~~Ship on Friday~~ Ship *today*
- [ ] Tag the version
- [ ] Tell the users: https://github.com/edragoev1/pdfjet-utils

How it works

> One Go file around PDFjet's `Markdown`, with the fonts built in.

```
markdown := pdfjet.NewMarkdown(regular, bold, italic, boldItalic, code)
markdown.DrawOnPages(pdf, text, &pages, letter.Portrait())
```

Feature	Tagged as
Headings	H1 to H6
Lists and tasks	L, LI, Lbl, LBody
Code	Code
Tables	Table, TR, TH, TD
